

ISLE OF MAN ARTS COUNCIL

ARTS FUNDING STRATEGY

The Isle of Man Arts Council is a publicly funded body sponsored by the Department of Education and Children. The Arts Council have delegated responsibility for their budget from the Minister for Education and Children, this budget is wholly derived from the tax duty received from Lottery ticket sales which is allocated by the Treasury of the Isle of Man Government. The purpose of the Arts Council's budget is to invest in arts and culture on the Isle of Man with the intention of increasing engagement and participation.

The Arts Council's Strategic Plan for the Arts is based on six objectives and funding will be awarded according to how your project or organisation can contribute to these objectives. You can find the Strategic Plan for the Arts on our website at www.iomarts.com or contact the Arts Office for a hard copy.

The Arts Council's funding strategy consists of four funding streams, please read the following information and apply under the funding scheme most appropriate for your purposes. If you need any assistance regarding your funding application please contact the Arts Office. The Arts Council considers funding applications bi-monthly, please refer to the schedule on our website to ensure your application is received in time.

If you are **applying for funding in excess of a total of £10,000** for an arts organisation or major arts event, we recommend that your application is received so that it can be considered at the March Arts Council meeting, when consideration is given to major funding awards for the following financial year e.g. March 2016 for the 16/17 year.
